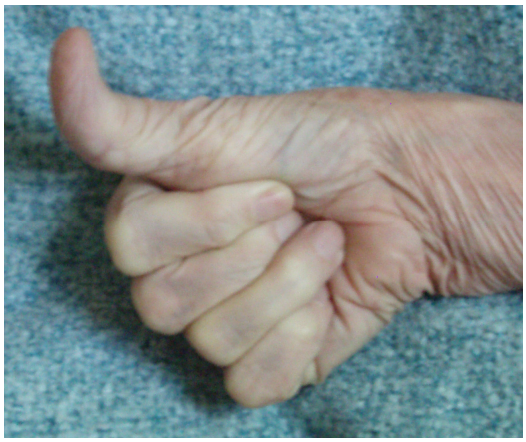
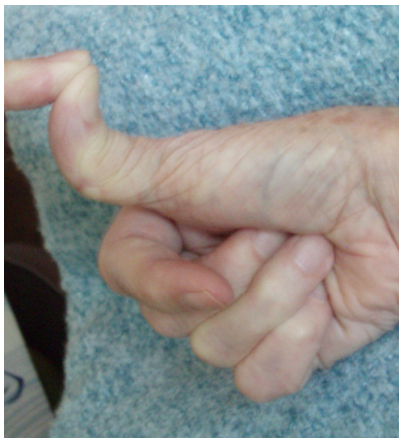
VERTICAL TOE?

We need population and family data about a possible new genetic ability in humans. Can you make a vertical big toe?

There is a possible association of this with hyperdistensible thumb (hitchhiker's thumb):





If you can, please help me gather data for this by checking to see whether your big toes can go vertical and if you have hitchhiker's thumb. Enter your initials and city and/or state in the appropriate column:

Both Vertical toe and Hitchhiker's thumb	Vertical toe only	Hitchhiker's thumb only	Neither
